Watershed Sizes Used as Guidance in Stream Alteration Regulations

This map product indicates the reaches of stream and river in a given town that would be at or below the 0.5, 1.0, and 10.0 square mile watershed thresholds used for jurisdictional determinations under the Vermont ANR Stream Alteration Regulatory Program.

Map Description

This map represents guidance on watershed sizes using data and methods that have a certain amount of error associated with them. The accuracy of the underlying data used for the Vermont Hydrography network varies. The regulated public may request River Management Program (RMP) approval, or the RMP may decide, to use watershed sizes based on more accurate methods and data.
