Watershed Sizes Used as Guidance in Stream Alteration Regulations

This map represents guidance on watershed sizes using data and methods that have a certain amount of error associated with them. The accuracy of an underlying dataset used for Vermont Hydrography may have a certain amount of error associated with them. The regulated public may request River Management Program (RMP) approval, or the RMP may decide, to use watershed sizes based on more accurate methods and data.

Map Description

This map product indicates the reaches of stream and river in a given town that would be at or below the 0.5, 1.0, and 10.0 square mile watershed thresholds used for jurisdictional determinations under the Vermont ANR Stream Alteration Regulatory Program.

RMP contacts and information about the Stream Alteration GP may be obtained at: http://www.anr.state.vt.us/dec/waterq/rivers/htm/rv_management.htm

Map Disclaimer

This map represents guidance on watershed sizes using data and methods that have a certain amount of error associated with them. The accuracy of an underlying dataset used for Vermont Hydrography may exceed the accuracy of the methodology and data set used to create this map. The regulated public may request River Management Program (RMP) approval, or the RMP may decide, to use watershed sizes based on more accurate methods and data.
