

TRORC Road Foreman Regional Meeting
Meeting agenda for Thurs. March 28, 2019
(snow date Tues Apr. 2, 2019)
Chelsea Town Garage
9:30am – 11:30am

1) Introductions + Announcements (9:30am)

2) Recycled Asphalt Shingles – James “Buzz” Surwilo, Solid Waste Management Program
Vermont Department of Environmental Conservation (9:40am – 10:15am)

By 2020, asphalt roofing shingle collection and recycling will be offered statewide. ANR and VTrans are piloting a project of testing a mixture of ground Recycled Asphalt Shingles (RAS) and natural aggregate for use on the driving surface on town highways. We had \$10,000 in grant money to subsidize the cost to towns to give it a try. We gave about \$3500 to Pownal and Shaftsbury last year, so we’ve about \$6500 left. The presentation describes RAS, the potential benefits, BMPs, and the pilot project expectations.

3) Review/comment draft Town Road and Bridge Standards with MRGP standards

4) Town of Plymouth’s hydraulic parts fitting station (shares with Bridgewater, Mt. Holly, Killington) and Bridgewater’s Ditch Cleaning machine
Better Roads grant projects
Municipal Roads Grants in Aid projects

5) Meeting Adjourn

Stay for lunch!

Please RSVP to Rita (rseto@trorc.org or call 457-3188)

Location:

Chelsea Town Garage – 25 East Randolph Road, Chelsea, VT. Phone: (802) 685-4302
